First-run Flows

Design review notes • Nora Patel

Goals

Make the first five minutes feel calm, short and reversible.

Flow

1. Welcome and workspace identity
2. Permissions merged into step three
3. Inbox preview with three sample conversations
4. Keyboard shortcut card and directory handoff

Design notes

Empty states carry a single action.
Copy stays under 14 words per line.
Mobile keeps one decision per screen.

Open question: should the mobile empty state mention search?
